

# KEVIN BUDZISZ

## CGI Artist

### Profile

Eight years of hands-on 3D rendering, modeling and animation experience. Competent, patient and adaptable regardless of the task. A lifelong learner, committed to continuous improvement, both professionally and personally. Extensive interest in Virtual Reality, 360-degree photos and videos. Will be a great addition to your team.

### Recent Experience

Lead Technical Artist 03/2024 - Present HomeViz360

- » Development, maintenance, and refinement of the production pipeline, including the creation of custom scripts to streamline art creation workflows.
- » Leading the design, development, optimisation, and web integration of interior design and product configuration systems.
- » Liaising with clients to understand their vision and requirements, providing creative direction and technical solutions to achieve desired outcomes efficiently.

CGI Lead 08/2021 - 01/2024 Futurium

- » Reporting to Directors and collaborating closely with other department heads to improve delivery times, budget costs and quality of work.
- » Managing workload and schedules of the CGI department to ensure timely delivery of finished projects, often within tight deadlines.
- » Identifying issues within the production pipeline and implementing solutions to address them, ensuring that development stays on track and meets quality standards.
- » Training existing department members on new and updated production procedures, as well as mentoring junior staff, providing guidance and feedback to support their growth within the company.

CGI Artist 10/2020 - 07/2021 Futurium

- » Working on multiple projects simultaneously to create top-quality floor plans, CGIs, virtual tours, animations and configurators for new build homes across all of the United Kingdom.
- » Responsible for creating, managing and updating libraries of over 1000 PBR materials and 500 high-quality furniture assets.
- » Responsible for designing and managing the process of creating thousands of high-quality renders daily, for use in "Design Your Dream Home" web configurator.
